Secondary school certificate
Z.P. High School - Guttavilli
GPA: 80%

Projects

Project Title : Tic-Tac-Toe Consoled Based Application
Description : Developed a Tic-Tac-Toe game using java,incorporating a simple command-line interface for user interaction. implemented game logic to handle players moves ,win conditions,and turn-based gameplay. Utilized object-oriented programming principles for clean and maintainable code. Enhanced user experience with error handling and game restart functionality.

Project Title : Library Management System
Description: Built a Hotel Booking System using Java, Spring Boot, and MySQL to manage hotels, rooms, users, and bookings efficiently. Implemented core features like room search, availability check, booking, cancellation, and user registration/login.

Project Title : Hotel Booking System
Description: Developed RESTful APIs for smooth client-server interaction and ensured data consistency with JPA and Hibernate. Secured the application with Spring Security and JWT-based authentication with role-based access (admin/user). Emphasized modular design, validation, exception handling, and scalability for real-world deployment scenarios.

Skills

- JAVA
- JDBC Connectivity
- Servlets

- Jsp
- My SQL
- Spring
- Spring Boot
- Spring MVC
- Spring JPA
- Web Services(Rest Api)
- Spring Security
- Microservices
- HTML
- CSS
- Oops Concpet
- Exception Handling
- Multithreading
- Collection Framework
- Java8 Features
- Problem-solving
- Sql - Queries
- Good Communication Skills
